**ITINERIS**  
EARLY COLLEGE HIGH SCHOOL  
*A Journey of a Lifetime*

## Itineris Early College Guidance Newsletter

[www.iechs.org](http://www.iechs.org)

### New Century Scholarship

On Wednesday, November 17th, Itineris counselor Matt Ekker and Salt Lake Community College Concurrent Enrollment advisor, Holly Perry will conduct a New Century Scholarship meeting for all juniors. At this meeting, juniors will learn about all of the requirements that are necessary to complete to earn the scholarship as well as be informed about recent changes that were made to the scholarship by the Board of Regents. The meeting will be held in the Health Sciences auditorium at 6:30 pm. All juniors seeking to meet the qualifications of the scholarship and their parents are strongly encouraged to attend.

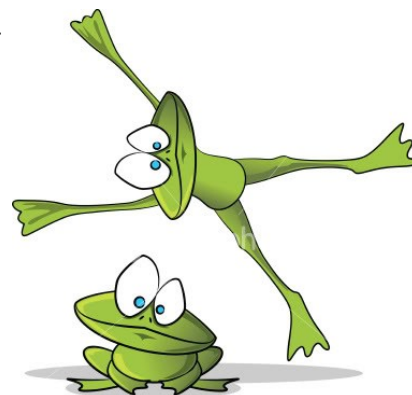

### “LEAP” into the University of Utah

The University of Utah has an outstanding opportunity for prospective freshman students called the “LEAP” program. Becoming a part of the LEAP learning community helps a student make a successful transition from high school to university in a supportive environment.

In LEAP, you enroll in a year-long seminar with the same students and the same faculty members. Also available are special optional courses in writing, library research, and service as well as a selection of majors. LEAP faculty are recognized for their teaching excellence. Former LEAP students report that by participating in the LEAP program they earned better grades, were more likely to graduate and were much happier with their education than non-LEAP students.

To participate in LEAP, you may sign-up at orientation when you enroll in other classes.

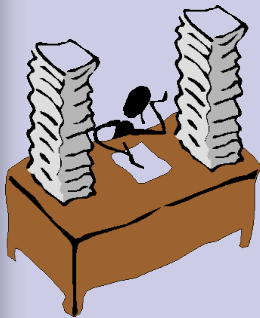

Orientation meetings for next year will not occur until 2011 and will be updated on the following website: <http://www.sa.utah.edu/orientation>. However, it is not too earlier to begin thinking about this great opportunity. Learn more at: <http://www.leap.utah.edu>.

## College Happenings

Most colleges provide a multitude of opportunities for students to attend events to familiarize themselves with the campus, participate in leadership opportunities, explore majors and even attend special admissions events. Explore the following opportunities online for the following colleges and events:

- USU Open House, November 10th [www.usu.edu/admissions/openhouse](http://www.usu.edu/admissions/openhouse)
- UVU Days, various dates [www.uvu.edu/futurestudents](http://www.uvu.edu/futurestudents)
- "U" Nights, various dates [www.web.utah.edu/newstudents/u\\_night.htm](http://www.web.utah.edu/newstudents/u_night.htm)
- SUU Overnight, various dates [www.suu.edu/overnight](http://www.suu.edu/overnight)
- Weber Wildcat Welcome Day, Jan. 26th Student Recruitment 801-626-6050
- Westminster School of Nursing & Health Science Open House, Nov. 17th [www.westminstercollege.edu](http://www.westminstercollege.edu)
- Snow Blast @ Snow College, various dates [www.snow.edu/snowblast](http://www.snow.edu/snowblast)
- SUU Leadership Weekends, various dates [www.suu.edu/weekend](http://www.suu.edu/weekend)

"Learning without thought is labor lost."

### **Financial Aid Night**

**When: January 5th  
7 p.m.**

**Who: Itineris Seniors & their parents/guardians**

**How: Mark your calendar!**

**Jostens orders are due November 12th!**

**-Senior Graduation  
-Class Rings**

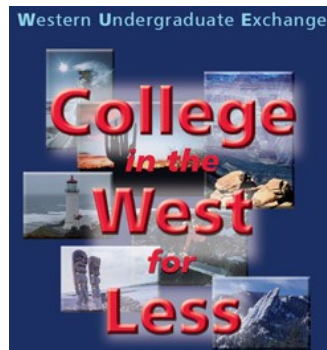

## **Western Undergraduate Exchange    USU Diversity Day**

Are you thinking about attending college outside the state of Utah? The Western Undergraduate Exchange (WUE) is a program through which students in participating states may enroll in designated two-year and four-year institutions and programs in other participating states at a special, reduced tuition level.

Tuition for WUE students is the regular in-state tuition plus 50 percent of that amount. In all programs, the cost to WUE students is substantially less than the nonresident tuition. Students do not need to demonstrate financial need to receive

the WUE tuition benefit.

Go to <http://www.wiche.edu/> to learn more about this program and participating states.

Diversity Day is a program designed to provide under-represented minority high school juniors and seniors with information, exposure and experiences of college life at Utah State University. The registration is \$20 which includes transportation, meals, and activities. This year's event will be held on Nov. 19th. To learn more and register online go to: <https://www.usu.edu/admissions/diversity>.

### **How to Make a College Visit:**

The very best way to know if a college "fits" you is to visit. One would never purchase a house or car sight unseen so why do so with college? College visits are important. Before you commit years of your life and thousands of dollars to a school, make sure that you are choosing a place that is a good match for your own personality and interests. You can't get the feel of a school

from any guidebook or by visiting the school virtually online. You must see the school in person. If you are going to invest the money for college, VISIT!

- Schedule a guided tour
- Attend an information session
- Arrange to speak with a department

- Spend the night in a dorm
- Talk to students who attend
- Meet with a professor
- Explore the campus

### **Science Day at the University of Utah**

The College of Science and the College of Mines and Earth Sciences at the University of Utah are pleased to announce **Science Day At The U** being held on **Saturday, November 13, 2010**.

High school students (sophomores, juniors and seniors) from around the state of Utah and Idaho are invited to the University of Utah campus

to attend a full day of science-related workshops and academic advice. These interactive workshops with science professors give high school students a great look at laboratory research and career opportunities in science, math and engineering. This annual event showcases the science and math programs at the U and is **absolutely free** to students, parents, and educators. Lunch

will be provided.

Register online by November 10th! [www.science.utah.edu/outreach/science-day.html](http://www.science.utah.edu/outreach/science-day.html).
